The first of these is the fact that the  
 number of people who are employed in the  
 service of the government is increasing  
 rapidly. This is due to the fact that  
 the government is expanding its activities  
 in many fields, and is therefore  
 requiring more personnel to carry out  
 its functions. This is particularly true  
 in the case of the military, where the  
 number of troops is being increased  
 to meet the demands of the situation.  
 Another factor is the fact that the  
 government is becoming more active in  
 the economic field, and is therefore  
 requiring more personnel to manage its  
 operations. This is particularly true  
 in the case of the public works  
 department, where the number of
